

IMPROVING

THE LIVES of
disabled people
through enriching
training courses

ENCOURAGING HAPPINESS AND HEALTH

“I employ a team of Personal assistants who require training regularly on my care needs. I found it difficult to find bespoke courses that could be personalised to my requirements. I then found out about Cherry Training through a friend and it sounded brilliant. I have used their services for around four years now and feel that I can rely on the team to provide me with excellent training courses, led by professional and skilled tutors.

My team have had training in many areas, such as Manual Handling, Basic life support and Catheter care. It is rare to find personalised courses that are specific to your needs that can take place in your own home. This training has given myself and my care team confidence in being able to deliver care in a safe and efficient manner.

I would thoroughly recommend Cherry Training Ltd.”

Hannah

Support your training with skills for care.

Read this brochure to understand:

What training is available.

How we work with you to select the right training.

How Skills for Care funding works for both PHB (Personal Health Budget) and direct payment holders.

Finding the right training for your unique needs is not always easy. Without knowing what options are fully available to you, it’s common to rush into training – and not see the results you wished for.

At Cherry Training, we connect you with the very best training opportunities that suit your complex needs – and fit into your life.

Our goal is to encourage happiness and health for all through outstanding learning and development opportunities.

Our services

At Cherry Training, we source bespoke training and risk assessments for disabled people.

This includes:

- Assessing what you and your team need
- Vetting trainers and checking professional qualifications
- Confirming if trainers are suitable for your needs
- Suggesting your best options
- Setting your training up
- Helping you with any preparation
- Taking feedback after the training to help you take the next steps

Choose how to receive your training:

Face to face

In-person training at your home.

Virtual

Training delivered online via Zoom, Skype, Facetime etc.

E-Learning

Ready-to-go courses you can complete online and at home.

Our training highlights

Discover some of the great courses we source to solve our clients' challenges and improve their wellbeing.

HR & Effective Employer Training

Confidently attract, retain and manage your employees. From recruitment and onboarding to development and retention, this in-depth course focuses on the difference people can make – and teaches you how to unlock your team's potential to do even better.

Overall, learn how to drive better quality of care through the effective management of carers and personal assistants (PAs).

Bespoke Mental Health Courses

Mental health is a huge topic to cover, with a vast amount of training involved. Therefore, we provide you with a tailored approach that focuses on your individual mental health conditions and challenges. From recognising symptoms to practising your own self-care, we help delegates gain confidence in the mental health sphere.

All in all, this training empowers carers and PAs to not only deliver an excellent quality of care but to take better care of their own mental health and wellbeing too.

Defensive Driver Training

Driving a vehicle is a normal part of many people's professional and personal lives. However, challenges on the road and driving a large vehicle can make you and your Personal Assistants (PAs) feel unsure and anxious – which can lead to accidents. In this course, you'll refresh your driving theory and learn vital strategies to approach hazards – helping to minimise risks whilst driving and develop your confidence.

In summary, Defensive Driver skills keep you – and your passengers – safer on the roads.

Moving and Handling People Risk Assessment

From identifying where injuries could occur to understanding how to prevent them, this thorough assessment promotes the safety of a person receiving care, their care team and their informal carers – such as family members. Carried out by a qualified Occupational Therapist or Physiotherapist, you'll receive a personal care and training plan bespoke to your individual needs.

Most notably, the assessment is a positive and fully inclusive process – encouraging input from the person receiving care, their team and their family.

Moving and Handling People Training

Moving and Handling People skills are invaluable when it comes to improving the wellbeing of a disabled person, their team and their family. For the person receiving care, this training ensures safety but also maximises their comfort and dignity. For the team, it re-establishes proper procedure – such as ways to protect your back.

Overall, the training teaches delegates how to deliver the best moving and handling to improve everyone's health and wellbeing.

“From day one we found Cherry Training to be helpful, responsive and willing to help organise the training we require.

The assistance provided when looking for funding was greatly appreciated and we have just completed our first sessions of Moving and Handling.”

How we work

We think that how we work is how we truly make a difference in the lives of disabled people. So, here are the 5 simple steps we follow to make sure we deliver the best training opportunities for each and every individual and their team.

1. We listen to you

Taking the time to understand what you need, we listen thoroughly to your goals, ambitions, concerns and feelings around training.

2. We use our knowledge

Using our longstanding expertise in the health and social care sector, we vet trainers' professional qualities to decide if they're a suitable match for you.

3. We personalise to you

No individual is the same as the next. Learning about your needs, we source training that fits within your life – such as operating on the weekend and training online.

4. We support you

From information about funding to advice after training, we're here to support you throughout. That way, you'll have a positive training experience that makes a difference.

5. We build relationships

Each client is so important to us – and continuously helping you develop and grow is at the centre of what we do. We're here to help, and we encourage you to always talk to us.

How to fund your training

Skills for Care

Money is available to fund your training if you are:

- An adult (18 or older) who employs a personal assistant
- A personal health budget (PHB) holder for a child (under 18 years) and employ a PA to support them
- Living in England

Don't delay submitting your application

Skills for Care is an independent registered charity here to help and provide you with financial support. However, the funding pot is limited – and although open until end of February/early March, it can run out early due to demand. So, don't wait!

Earlier applications have a better chance of receiving funding.

You can download the application form from:

<https://www.skillsforcare.org.uk/Learning-development/Funding/Individual-employer-funding/Individual-employer-funding.aspx>

Need help applying?

Get in touch and we'll talk you through what you need to do.

Learn more about Cherry Training

With over 15 years working in the health and social care sector, we are passionate about helping people and organisations, nationwide, connect with the very best clinical and non-clinical training opportunities. Over the years, we've seen the difference we can make – and we know this comes from giving our clients a clear view of their training options, followed by careful support throughout the training process.
