

IMPROVING

THE LIVES of

disabled people through
enriching training
courses

With over 25 years working in the health and social care sector, we are passionate about helping people and organisations, nationwide, connect with the very best clinical and non-clinical training opportunities.

Over the years, we've seen the difference we can make - and we know this comes from giving our clients a clear view of their training options, followed by attentive support throughout the training journey and beyond.

How to get in touch with us and start your training journey

Our Services

At Cherry Training, we source personalised training and risk assessments for disabled people and their care team.

- Assessing what you and your team need
- Vetting trainers and checking professional qualifications
- Matching you with appropriate trainers for your needs
- Suggesting a training plan
- Organising your training
- Taking feedback after the training to help you take the next step

Choose how to receive your training:

Face to Face

In-person training at your home

Virtual

Training delivered online, live with a Trainer

E-Learning

Ready-to-go courses you can complete online and at home

What our Clients Think

"I employ a team of Personal Assistants who require training regularly on my care needs. I found it difficult to find bespoke courses that could be personalised to my requirements. I then found out about Cherry Training & I have used their services for around five years now, I feel that I can rely on the team to provide me with excellent training courses, led by professionals"

"I have used Cherry Training several times in the last year for the training of my Personal Assistants. All trainers have been highly knowledgeable, keen to personalise their sessions and pragmatic about the realities of care. The office team are efficient, proactive and thoughtful."

"I want to take the time to appreciate our trainer for such a wonderful Moving and Handling training in our home. The trainer is knowledgeable with very useful information. She made us feel very relaxed throughout the training. Cherry Training always deliver. Thank you!"

"Cherry Training are very quick with their response times, which substantially reduces the worry and stress of ensuring your staff are fully up to date with their training.

I would highly recommend Cherry to any individual or company looking for professional training"

Face to Face Courses

Discover some of the great courses we source to solve our clients' challenges and improve their wellbeing.

Moving and Handling Personal Plan and Risk Assessment

From identifying where injuries could occur to understanding how to prevent them, this thorough assessment promotes the safety of a person receiving care, their care team and their informal carers - such as family members. Carried out by a qualified Occupational Therapist or Physiotherapist, you'll receive a bespoke handling plan to your individual needs. Most notably, the assessment is a positive and fully inclusive process - encouraging input from the person receiving care, their team and their family.

Moving and Handling People Training

Moving and Handling People skills are invaluable when it comes to improving the wellbeing of a disabled person, their team and their family. For the person receiving care, this training ensures safety but also maximises their comfort and dignity. For the team, it re-establishes proper procedure - such as ways to protect your back. Overall, the training teaches learners how to deliver the best moving and handling to improve everyone's health and wellbeing.

Personalised Clinical Training

Our clinical training is tailored around your specific needs and is delivered in your home. Our Nurse Trainers will contact you beforehand to discuss your needs, utilise your specific equipment (where appropriate) and involve you or your representative as much as you want to be. All our Trainers are familiar with training in the home environment and appreciate the unique circumstances each individual has.

How We Work

We think that how we work is how we truly make a difference in the lives of disabled people. So, here are the 5 simple steps we follow to make sure we deliver the best training opportunities for each individual and their team.

1

We listen to you

Taking the time to understand what you need, we listen thoroughly to your goals, concerns and feelings around training.

2

We use our knowledge

Using our longstanding expertise in the health and social care sector, we vet trainers' professional qualities to decide who will be a suitable match for you. We personalise to you.

3

We personalise to you

No individual is the same. Learning about your needs, we source training that fits around your life, such as operating on the weekend and training online.

4

We support you

From information about funding to advice after training, we're here to support you throughout. That way, you'll have a positive training experience that makes a difference.

5

We build relationships

Each client is so important to us and continuously helping you and your team to develop and grow is at the centre of what we do. We're here to help, and we encourage you to always talk to us.

How to Fund your Training

There are different ways that you can fund your training with us.

- You may be eligible for social care direct payments or a personal health budget from the NHS
- You may use funding from compensation you've received
- You may be self-funding your care
- Skills for Care, a national charity periodically has funding available for people employing PAs and Carers
